Conservation Commission

Re: 409 Crafts St.

RDA #2. Work Description:

I would like to remove the five trees shown on the attached "Tree Removal Plan". I am currently working on the plans for the renovation and will provide a tree replacement plan with the notice of intent once the plans are completed and I file for my building permit. I will not be uprooting any of the tree stumps at this time, I am only requesting to remove the trees to further assess the future plans for this project.

Thank you
