CITY OF NEWTON
DEPARTMENT OF PUBLIC WORKS
SPECIFICATIONS FOR CONTRACTED SNOW HAULING SERVICES

I. INTRODUCTION

The City intends to contract for on-call snow hauling services on an hourly basis for snow hauling.

The types of equipment that may be required are attached hereto, and bidders should state in the space provided the number of such pieces of equipment available for each type and the applicable hourly rates for the 2021 - 2022 snow season. It is expected that the City will contract with multiple Contractors. Contractors are not guaranteed that any actual work will be performed during the 2021 – 2022 snow season and will only be paid if services are actually provided.

When the DPW Commissioner determines that hauling of snow is necessary, and that it is advantageous to call Contractors to perform snow hauling services, the Commissioner or his designee will determine which types of equipment, and how many, are necessary to be used for the hauling operation. The Contractor with the lowest hourly rate for each type of equipment will be called first. If that Contractor has not contracted for enough pieces of equipment that the Commissioner has determined are needed for the hauling operation, or the Contractor notifies the Commissioner that its equipment is not available for hauling operations on the dates and times the Commissioner determines that hauling is necessary, then the Contractor with the next lowest hourly rate will be called, and so forth until the Commissioner has secured the equipment necessary for the hauling operation.

If more than one Contractor has contracted with the City for the same hourly rate for a particular type of equipment, then the Contractor providing for the most available pieces of equipment of that particular type in their contract will be called prior to other contractors with fewer pieces of equipment of that particular type available under their contract.

II. RESPONSIBILITIES OF CONTRACTORS

- A. Upon execution of contract, each piece of equipment contracted for hauling operations will be assigned by the DPW to a particular route or location. It is possible that not all pieces of equipment will be utilized during every event, and whether Contractors are called at all will be entirely dependent on weather conditions as they develop over the 2021 – 2022 snow season, and Contractors will only be called at times when the DPW Commissioner or his designee determines that hauling operations are necessary. Utilization of accepted equipment is at the discretion of the DPW Commissioner or his designee. All hauling operations will be completed in the sequence designated by the DPW Commissioner and/or his designee. It shall be the Contractor's responsibility to become familiar and to familiarize any drivers, other than the Contractor, with the route. Supervisory personnel of the DPW will be available to assist in this familiarization and to advise the Contractor of any special conditions which may be encountered on the route.
- B. Vehicles Inspection
1. The Contractor accepts full responsibility to schedule vehicle inspections at a City facility or at a location to be determined by the DPW Commissioner or his designee. All contracted equipment must be up to Massachusetts Department of Transportation (MassDOT) standards and may be inspected by the City at any time prior execution of a contract or prior to or while performing snow hauling operations.
 2. All paperwork related to vehicle inspections shall be sent to the DPW Commissioner or his designee at Newton City Hall, 1000 Commonwealth Avenue, Room 101, Newton Centre, MA 02459. The DPW Commissioner or his designee will subsequently contact responsive and responsible bidders to schedule the inspections. The Contractor must schedule the inspections through the DPW Commissioner or his designee, either in writing or by calling **(617) 796-1494**. The inspections will take place Monday through Friday at the discretion of the DPW Commissioner or his designee. Failure to schedule inspection shall be deemed to be solely the fault of the Contractor. The City will not assume any responsibility or liability for failure of the Contractor to have the vehicles inspected.

3. Each Vehicle at the time of inspection must fully meet all conditions set forth in this contract. All equipment must be inspected by DPW prior to acceptance. The Contractor's equipment must also pass inspection. If the equipment does not pass the inspection the first time, the Contractor may modify the equipment and request a re-inspection or supply another piece of equipment after submitting necessary documentation to the Purchasing Agent and receiving authorization. However, in no event will a Contractor be given a third opportunity to pass an inspection if either the original or the replacement equipment fails the second inspection.

C. The Contractor shall be responsible for all fuel, repairs and/or equipment and personnel necessary to operate the trucks or equipment and shall bear any and all risk of loss should personnel, trucks or equipment be injured or damaged while performing duties under the contract with the City.

D. Equipment called in must arrive at its designated check-in point within two hours of being called, or the City may contact the Contractor with the next lowest hourly rate for the type of equipment called.

E. All hauling operations shall be continued without interruption unless said interruption is authorized by the DPW Commissioner and/or his designee.

III. OPERATIONS

A. A City Snow Inspector shall be assigned to supervise contracted equipment. Each City Snow Inspector shall be responsible for a designated group of routes and/or locations. Planning operations shall be conducted in accordance with the direction of said Inspector and hauling operations shall be conducted in accordance with the instructions provided by the DPW Commissioner and/or his designee. In no instance shall a hauling operation be deemed complete until said City Snow Inspector has approved it.

B. Equipment must check in and check out from its designated assignment location. Equipment must arrive fully fueled and ready to initiate hauling operations.

C. Each piece of contracted equipment shall carry an identification plate provided by the DPW. Such identification shall be affixed to the appropriate vehicle throughout the contract period.

D. All contracted operators must have access to a cell phone to both relay and receive information from the DPW Commissioner or his designee. An updated list of operator names with affiliated equipment and cell phone numbers must be provided by the Contractor at each check-in. Contracted operators will be provided with a contact phone number to speak with the DPW Commissioner or his designee to address in-field issues.

CITY OF NEWTON
PURCHASING DEPARTMENT

CONTRACT NO. C-_____

THIS AGREEMENT made ___day of _____, in the year Two Thousand and Twenty One, by and between the CITY OF NEWTON, a municipal corporation organized and existing under the laws of the Commonwealth of Massachusetts, hereinafter referred to as the CITY, acting through its Chief Procurement Officer, but without personal liability to him, and

whereas the parties desire to enter into a contract for the rental of snow hauling equipment by the City for normal hauling operations.

WITNESSETH: That the parties hereto agree as follows:

CONTRACT DOCUMENTS.

The Contract documents consist of the following documents which are either attached to this Agreement or are incorporated herein by referenced:

This CITY-CONTRACTOR Agreement;

The City's Request for Bid #22-16 issued by the Purchasing Department, including the On-Call Snow Hauling Services, Contract Terms and Specifications;

The Bidding Documents for Snow Hauling Services including the Request for Bids, Certificate of Tax Compliance, Bid Forms, and all specifications, instructions, terms and conditions contained therein;

The attached Schedule of Types of Vehicles and/or Equipment;

Addenda Number(s) _____;

The Bid Response of the CONTRACTOR submitted for this contract and accompanying documents and certifications;

Certificate(s) of Insurance submitted by the CONTRACTOR in connection with this contract;

Duly authorized and executed Amendments, Change Orders or Work orders issued by the CITY after execution of this CITY-CONTRACTOR Agreement.

This CITY-CONTRACTOR Agreement, together with the other documents enumerated in this Article, constitute the entire Agreement between the CITY and the CONTRACTOR.

GENERAL CONDITIONS

The Schedule of Types of Vehicles and/or Equipment to be provided for in this contract, and the Contractor's priority¹ with respect to each is attached hereto, along with the number of such pieces of equipment available for each type and the applicable hourly rates for the 2020 – 2021 snow season. It is expected that the City will contract with multiple contractors. Contractors are not guaranteed that any actual work will be performed during the 2020 – 2021 snow season and will only be paid if services are actually provided.

¹ Contracts were awarded in order or priority based on price, e.g., the lowest bidder for specified vehicle and equipment was awarded the principal contract, the second lowest the second priority, the third lowest the third priority and so forth. When the City needs a particular vehicle or piece of equipment, it will call the first priority contractor and, if it cannot provide what is needed, the second, and if it cannot provide what is needed, the third and so forth until the City can obtain the needed vehicle or piece of equipment.

When the Commissioner of Public Works determines that hauling of snow is necessary, and that it is advantageous to call Contractors to perform snow hauling services, the Commissioner of Public Works or his designee will determine which types of equipment, and how many, are necessary to be used for the hauling operation. The Contractor with the lowest hourly rate for each type of equipment will be called first. If that Contractor has not contracted for enough pieces of equipment that the Commissioner has determined are needed for the hauling operation, or the Contractor notifies the Commissioner that it's equipment is not available for hauling operations on the dates and times the Commissioner determines that hauling is necessary, then the Contractor with the next lowest hourly rate will be called, and so forth until the Commissioner has secured the equipment necessary for the hauling operation.

It shall be deemed a breach of the terms of this Contract for the Contractor to fail to act in good faith and or to fail to take reasonable measures when determining that vehicles or equipment are not available. In that event the City shall have the right to by-pass the Contractor in order of priority in any future calls for vehicles or equipment.

If more than one Contractor has contracted with the City for the same hourly rate for a particular type of equipment, then the Contractor providing for the most available pieces of equipment of that particular type in their contract will be called prior to other contractors with fewer pieces of equipment of that particular type available under their contract.

RESPONSIBILITIES OF CONTRACTORS

- A. The Commissioner of Public Works or their designee will assign all routes and specific equipment as needed for hauling operations. It is possible that not all pieces of equipment will be utilized during every event, and whether Contractors are called at all will be entirely dependent on weather conditions as they develop over the 2021 – 2022 snow season, and Contractors will only be called at times when the Commissioner of Public Works or their designee determines that hauling operations are necessary. Utilization of accepted equipment is at the discretion of the Commissioner of Public Works or their designee. All hauling operations will be completed in the sequence designated by the Commissioner of Public Works and/or his designee. It shall be the Contractor's responsibility to become familiar and to familiarize any drivers, other than the Contractor, with the route. Supervisory personnel of the Department of Public Works will be available to assist in this familiarization and to advise the Contractor of any special conditions which may be encountered on the route.
- B. Vehicles Inspection
1. The Contractor accepts full responsibility to schedule vehicle inspections at a City facility or at a location to be determined by the DPW Commissioner or his designee. All contracted equipment must be up to Massachusetts Department of Transportation (MassDOT) standards and may be inspected by the City at any time prior execution of a contract or prior to or while performing snow hauling operations.
 2. All paperwork related to vehicle inspections shall be sent to the Commissioner of Public Works or their designee at Newton City Hall, 1000 Commonwealth Ave., Newton Centre, MA 02459. The Commissioner of Public Works or their designee will subsequently contact responsive and responsible bidders to schedule the inspections. The Contractor must schedule the inspections through the Commissioner of Public Works or their designee, either in writing or by calling **(617) 796-1494**. The inspections will take place Monday through Friday at the discretion of the Commissioner of Public Works or their designee. Failure to schedule inspection shall be deemed to be solely the fault of the Contractor. The City will not assume any responsibility or liability for failure of the Contractor to have the vehicles inspected.
 3. The Vehicle at the time of inspection must fully meet all conditions set forth in this contract. All equipment must be inspected by DPW prior to acceptance. The Contractor's equipment must also pass inspection. If the equipment does not pass the inspection the first time, the Contractor may modify the equipment and request a re-inspection or supply another piece of equipment after submitting necessary documentation to the Purchasing Agent and receiving authorization. However, in no event will a Contractor be given a third opportunity to pass an inspection if either the original or the replacement equipment fails the second inspection.

- C. The Contractor shall be responsible for all fuel, repairs and/or equipment and personnel necessary to operate the trucks or equipment and shall bear any and all risk of loss should personnel, trucks or equipment be injured or damaged while performing duties under the contract with the City.
- D. Equipment called in must arrive at its designated check-in Point within two hours of being called, or the City may contact the Contractor with the next lowest hourly rate for the type of equipment called.
- E. All hauling operations shall be continued without interruption unless said interruption is authorized by the Commissioner of Public Works and/or his designee.

OPERATIONS

- A. A City Snow Inspector shall be assigned to supervise contracted equipment. Each City Snow Inspector shall be responsible for a designated group of routes and/or locations. Planning operations shall be conducted in accordance with the direction of said Inspector and hauling operations shall be conducted in accordance with the instructions provided by the Commissioner of Public Works and/or their designee. In no instance shall a hauling operation be deemed complete until said City Snow Inspector has approved it.
- B. Equipment must check in and check out from its designated assignment location. Equipment must arrive fully fueled and ready to initiate hauling operations.
- C. Each piece of contracted equipment shall carry an identification plate provided by the Department of Public Works. Such identification shall be affixed to the appropriate vehicle throughout the contract period.
- D. All contracted operators must have access to a cell phone to both relay and receive information from the Commissioner of Public Works or their designee. An updated list of operator names with affiliated equipment and cell phone numbers must be provided by the Contractor at each check-in. Contracted operators will be provided with a contact phone number to speak with the Commissioner of Public Works or their designee to address in-field issues.

COMPENSATION

Compensation shall be made on the basis of hourly rates for classes of equipment as set forth in Schedule of Trucks and Equipment of this contract.

EQUIPMENT SPECIFICATIONS

- A. The Equipment furnished under this contract must be in accordance with the following specifications and fully comply with any and all applicable Motor Vehicles Laws of the Commonwealth of Massachusetts including showing a valid Massachusetts State Registration.
- B. All equipment must be in excellent condition, smooth running at operating levels, clean inside and out and under the hood, with evidence of proper maintenance and inspection.
- C. The City reserves the right to reject any piece of equipment that does not pass City administered inspection and road tests and comply fully with this specification at any time during the term of the contract.
- D. The bid price shall include the cost of furnishing the operator, insurance, repairs, ballast, chains, fuel, oil, lubricants, and all other costs related to the operation of the equipment.
- E. Any additional types of equipment proposed for use under this contract must meet requirements and criteria as herein established and must also be individually approved by the Commissioner of Public Works and/or his designee.
 - 1. Each piece of equipment will have one set of tire chains for each vehicle
 - 2. Rotary-type light with a yellow/amber lens visible for 360 degree around for each vehicle
 - 3. Ballast as supplied by the Contractor
 - 4. Plow unit must have an automatic tripping device as to protect manholes and other protrusions above the top of the pavement
 - 6. All electrical and mechanical systems to be in excellent operating condition

The Commissioner of Public Works and/or his designee or his agent shall make the final decision as to trucks and equipment sizes and categories, blade measurements and bucket capacities.

GENERAL CONDITIONS

- A. The workday runs from 12:01 a.m., to 12:00 midnight.
- B. Contractors must provide contact information, including a phone number, for a primary contact person and at least one (1) backup contact person where Contractors will be reachable 24 hours per day, 7 days per week. In the event the Commissioner of Public Works or his designee attempts to contact a Contractor at the phone number(s) provided, and no response is received within one (1) hour, for any reason, such non-response will be treated as if the Contractor had notified the Commissioner that none of its contracted equipment is available for that particular hauling operation during the dates and times that the Commissioner has determined that a hauling operation was necessary.
