## Mayor's Update

### Slippery Sidewalks & Plentiful Potholes

The icy, slushy, snowy conditions combined with frigid temperatures we all experienced from early Friday lasting into Saturday have created very slippery conditions throughout the City, especially on our sidewalks and crosswalks.

Our crews continue to address the many areas of concern. But please be cautious when walking and biking.

Temperatures climb into the 40's after today so conditions will improve as the week goes on.

These weather conditions are also ideal for the creation of potholes. Crews will be out this week not only addressing the ice issues but also filling the many potholes which have appeared over the last few days.

Please use the Newton 311 app, website or call 617 -796-1000 during City Hall business hours (or leave a message) to report pothole locations.

Warmly,

Ruthanne
