Helpful tips

Know your plan

Your plan may require one or more of the following before you can fill your prescription:

Prior authorization:

Your plan's approval to get a medication

Step therapy:

Trying one or more lower-cost medications before another

Quantity limits:

Getting a certain amount of each prescription

Talk to your doctor

When you talk with your doctor, use our app to confirm coverage and costs. You can also talk about what you need to do to get your medication.

Save money on medication

Your formulary is a list of covered medications. The list is broken into sections called tiers (or cost level you pay).

- Choosing medications in lower tiers may save you money.
- Generic medications usually have lower cost sharing than brand-name medications. Ask your doctor if a generic is right for you.
