Professional Engineer

Professional Land Surveyor

Engineer making revisions (name + email)	Jane Doe (janedoe@abc.com)
Land Surveyor making revisions (name + email)	Steve Smith (ssmith@pls.com)

Sheet 1

- **Response to Conservation Commission Request:** Revised wetland line and buffer zone line.
- **Response to Conservation Commission Request:** Added tree diameters and species.

Sheet 2

- **Response to City Engineering Request:** Added note indicating that new concrete sidewalks and granite curbing will be installed along property frontage.

Sheet 3

- **Response to City Engineering Request:** Showed a dimension between the proposed water and sewer service.
- **Response to City Engineering Request:** When the grading was modified, the elevations of the infiltration systems were modified and adapted.
- **Response to City Historic Commission Request:** Sport Court has been removed.
- Due to the removal of the Sport Court the grading in that entire area has been modified.
- The pool was slightly reduced in size.

Revised Stormwater Report (revised: 9 June 2022)

- The watershed maps have been modified according to the new changes made. The sub-catchments and discharge points have remained the same.
- The infiltration systems have remained the same in size, although all the calculations have been made again.
