Subject: Concerning gas lines

Hello Chair Leary,

I am a resident of Newton and I simply wanted to put out my strong opinion regarding your upcoming meeting about the gas pipeline replacement projects. It is the opinion of me and pretty much every friend and family member I have that we don't need new gas lines, we need to move towards a future without gas, and we need to do it fast, and Newton needs to be a leading force in that, as it is in so many things.

Thank you for your time,
Jesse King
